About

JB-Flexible is a well known and popular delineator post with many advantages. Choosing JB-Flexible means not just choosing any delineator post. It means taking responsibility for the future in many ways; regarding environmental impact, service/maintenance and economically, both during installation and in the future.

Advantages

- CE-Certified 0402-CPR-SC0277-14 by SP in Sweden (0402).
- Officially tested and approved to EU-standard EN 12899-3:2007 by BAST (Bundesanstalt für Straßenwesen).
- Designed for tough road environment.
- Made out of recyclable, impact-resistant and UV-stabilized plastic of the highest quality.
- Less material during manufacturing provides an environmental friendly delineator post at a great price.
- Uniquely flexible, the post is impact resistant and withstands repeated 90° bending. *
- Simple and fast installation.
- Easy to maintain, easy to change damaged parts.

Product list and spare parts

Description	Length	Article No.
Delineator post, socket mounted.	1600 mm	11-400075
